

Webinars - Table of Contents

Altium Designer Related.....	6
Installation.....	6
Altium Designer 20 Installation	6
Overview.....	6
Altium Designer Overview	6
SOLIDWORKS PCB, Altium Designer, and the Big Picture.....	6
Altium Designer 16 Navigation.....	6
Altium Designer 20 Navigation.....	6
Schematic Preferences - Part 1	6
Schematic Preferences - Part 2	6
Concord Pro / Nexus / A365	6
Concord Pro, NEXUS, Vault?.....	6
6 Considerations for Getting Started with Altium 365 and Concord Pro	6
Creating Components in A365/Concord Pro.....	6
PCB Editor.....	6
Auto Route or not	6
Design Reuse in Altium Designer	6
DRC Revisited Part 1	6
DRC Revisited Part 2	6
Design Rule Checker.....	6
High Speed Design Rules	6
xSignals and Length Tuning.....	6
Mechanical Layers – Revisited	6
How to Tame your Mechanical Layers.....	6
Query Language.....	6
Rigid-Flex Design.....	6
Routing Tools in Altium	6
Test Points - Before Layout and Way Beyond Manufacturing.....	6
3D / ECAD-MCAD.....	6
3D in Altium Designer	6
Improving the Altium ECAD / MCAD Connectivity Experience	6

ECAD-MCAD Co-Design with SOLIDWORKS PCB Connector	6
Library.....	6
Creating Footprints.....	6
Creating Symbols.....	6
DbLink Demystified	6
Tour of Altium Provided Libraries	6
Database Library Flows	6
Rethinking Parameters with Altium's Part Choices	6
SOS about Library Scrubbing.....	6
Documentation	6
Outjob & Documentation Automation	6
Draftsman (and Blueprint).....	6
Features	6
PCB Translation - "Invisible Insanity"	6
Cabling in Altium Designer	6
A View of Variants	6
Multi-board Design in AD18.....	7
High Speed Design (Signal Integrity) in Altium Designer	7
Scripting in Altium Designer	7
SPICE Simulation	7
Subversion (aka SVN).....	7
Design Reuse in Altium Designer	7
Test Points - Before Layout and Way Beyond Manufacturing.....	7
A Tour of Altium Libraries.....	7
Creating Footprints.....	7
Creating Symbols.....	7
Database Library Management.....	7
DbLink Demystified	7
Electronic Design Process	7
PCB Translation - "Invisible Insanity"	7
SOS about Library Scrubbing.....	7
<u>Cabling & Wire Harness</u>	<u>7</u>
Cable Design 101	7
Wire/Cable Harness Design & Zuken E3.....	7
Cabling in Altium Designer	7
<u>Design for Manufacturing.....</u>	<u>7</u>
6 Key Considerations When Starting a New PCB Design	7

Mechanical Layers – Revisited	7
How to Tame your Mechanical Layers.....	7
Fab and Assembly Documentation	7
DFM Part 1 (Post-Layout Considerations)	7
DFM Part 2 (Pre-Layout Considerations)	7
DFM Part 3 (Library Considerations).....	7
DFM Part 4 (Stackup Considerations)	7
Beyond the Design & Layout of Your PCB.....	7
Test Points - Before Layout and Way Beyond Manufacturing.....	7

High Speed Design..... 7

Stackup for High-Speed Design.....	7
The accidental antenna and how to make one	7
Mastering the Matching of the Lines	7
What Drives a High Speed Signal: Voltage or Current?	7
Practical DDR3- Part 1	7
Practical DDR3 - Part 2	7
What defines high speed in electronic design?.....	7
Practical HS Design - Part 1	7
Practical HS Design - Part 2.....	7
Practical HS Design - Part 3.....	7
High Speed Topic: Transmission Lines - AC Impedance	7
High Speed Topic: DC impedance?	8
High Speed Design Series - RF Part 1	8
High Speed Design Series - EM/SI Part 2	8
High Speed Design Series - PCB/SI Part 3.....	8
Power Integrity-Power Distribution Network.....	8

Library Management..... 8

SOS about Library Scrubbing.....	8
Database Library Flows	8
DbLink Demystified	8
Fundamentals of Library Structure	8
Libraries Built to Last.....	8
Tour of Altium Provided Libraries	8
Creating Symbols.....	8
Creating Footprints.....	8

Mechatronics..... 8

Rigid-Flex Design.....	8
ECAD-MCAD Co-Design with SOLIDWORKS PCB Connector	8
SOLIDWORKS PCB, Altium Designer, and the Big Picture.....	8
Improving the Altium ECAD / MCAD Connectivity Experience	8
3D without the M.E.	8
Bridging the ECAD and MCAD Worlds	8

PCB Broadview..... 8

6 Key Considerations When Starting a New PCB Design.....	8
10 things that may surprise you about engineers in the PCB process	8
A Short History of the Short History of Printed Circuit Boards	8
To Route or Auto Route.....	8

PCB Elements..... 8

Stackup for High-Speed Design.....	8
Vias: Blind, Buried, and Beyond	8
Deep Dive – DC Impedance?.....	8
Deep Dive - Inductors.....	8
Deep Dive - Capacitors	8
Deep Dive - Vias	8
Intuitive Stack-up Planning & Impedance Control.....	8
Layer Stackup	8
PCB Translation - "Invisible Insanity"	8
Test Points - Before Layout and Way Beyond Manufacturing.....	8

Power Supplies..... 8

Designing Buck Converter without Bucking the FCC - Part 1 of 2.....	8
"Boosting" your success with the FCC - Part 2 of 2.....	8
Powering Up on Power Supplies, Part 1	8
Powering Up on Power Supplies, Part 2	8
Power Integrity-Power Distribution Network.....	8

Simulation..... 9

Stackup for High-Speed Design	9
The accidental antenna and how to make one	9
Practical Aspects of Signal Integrity - Part 1	9
Practical Aspects of Signal Integrity - Part 2.....	9

Practical Aspects of Signal Integrity - Part 3.....	9
Practical Aspects of Serial Communications - Part 4.....	9
Beyond a Heatsink - Thermal Considerations in PCB Design.....	9
When do you simulate?.....	9
Impedance on the power grid, too?!.....	9
SPICE Simulation.....	9
